Financing Health Care Reform in New Jersey

Can New Jersey Afford It?

Can New Jersey Afford to do Without It?

The 2008 “*Financing Health Care Reform in New Jersey*” conference will advance the dialogue among senior New Jersey officials and stakeholders about ways to finance significant state health care reforms designed to increase access and coverage to quality health care in the state.

The agenda includes a nationally recognized group of keynote speakers and panelists who will present ideas reflecting a broad range of reform options, lessons learned from other states that have implemented financing changes, as well as the expectations for federal and state government action. Policymakers will also comment on possible reform strategies for New Jersey, and the likely implications of their adoption.

This event will be held at no cost to attendees, and will include a complimentary lunch.
