Experience

Rutgers Center for State Health Policy

Research Specialist

New Brunswick, NJ

September 2026 – Present

- Perform statistical programming and data analysis to support population health research, including Medicaid claims data and Housing and Urban Development (HUD) data.
- Develop and document new methods and procedures to enable innovative data uses.
- Ensure consistency and accuracy across all data sources.

A.J. Drexel Autism Institute

Data Scientist

Senior Research Analyst

Philadelphia, PA

July 2025 – August 2026

January 2024 – July 2025

- Perform data cleaning, transformation, harmonization, and statistical analysis of primary and secondary data.
- Contextualize data from administrative databases including HUD and HRSA from a public policy lens.
- Held two webinars introducing spatial data linkages to researchers and students.

Pioneer Academics

Senior Data and Process Manager

Jenkintown, PA

Oct 2022 – September 2023

- Created and improved templates for tracking, payment processing, and needs assessments.
- Developed risk index to identify students who may need extra support.
- Managed program coordinators, fostered career growth, and resolved student and faculty issues as escalated by direct reports.

Urban Redevelopment Authority of Pittsburgh

Policy and Data Analyst

Pittsburgh, PA

September 2018 – October 2021

- Launched impact measurement initiative by engaging leaders in logic model development, KPI development, impact metrics development, and long-term communications planning.

Jamie Reese

jamiereese.mpa@gmail.com

267.640.7386

- Created policy memos, process improvement recommendations, and ad-hoc analyses for executive leaders and elected officials.
- Supported Director of Housing Opportunity Fund in developing affordable housing funding requirements and quantitative proposal evaluation tools.

Fourth Economy Consulting

Pittsburgh, PA

Research Associate

May 2015 - September 2018

- Produced studies for community and economic development partners including needs assessments, impact analyses, feasibility studies, and market analyses.
